Position Budget vs Costing Allocation

- Position budget is not the same as costing allocation
- Position budget is not updated automatically to reflect costing allocation changes
- FY 18 Position Budget will reflect the last permanent changes that have been tracked in Workday
 - Position Budgets are only updated if a unit identifies a transaction as permanent and provides source of fund information in the memo field in Workday

Institutional Pay Adjustments

- Any institutional pay adjustments (promotion, tenure, merits, etc.) are based on Position Budgets NOT costing allocations
- **Position budgets must be reviewed to ensure the budget reflects the permanent splits and amounts on a position since this will be used to load the Operating Budget**

Institutional Pay Adjustments

Adjustments loaded into Workday as Compensation Change

- Compensation change will prorate according to current costing allocation and corresponding percentages for payroll purposes

Office of Budget & Planning:

- Load Position Budget for any institutional pay adjustments based on current Position Budget splits
- Update Position Budget for all other permanent compensation or costing allocation changes if notified by the department/unit

Institutional Pay Adjustments

Departments/Units

- Responsible for all corrections to costing allocations after any institutional pay adjustments

- For all other permanent position changes, units must note the change as being permanent and provide the following information in the memo field in order for B&P to update the Position Budget:
 - Source of funds if needed
 - Program number/driving work tag and dollar amount for each split
