

# Roly-Poly

Photo by Sarah Rayner

**The Roly Poly** is also known as pill-bug, doodle bug, potato bug, and pill woodlouse. They are not sow bugs, because sow bugs do not roll up in a ball.

Roly Polies are the arthropods that roll up into a ball! Find out more about the Roly Polies by clicking through the Learning Links below and then explore your backyard to see if you can find some of your own.
